

# Elite BCF36 Direct Vent Fireplace

## Natural Gas Contemporary Builder's Fireplace

**The Elite BCF36 is the perfect combination of style, functionality and affordability.**

You can have everything you are looking for in a fireplace without having to sacrifice! The Elite BCF36 is the first of its kind, a flush front, clean face fireplace with only a 13" framing depth. Now you can enjoy the style and elegance of a contemporary clean face fireplace without sacrificing functionality.

The Elite BCF36 is compact for ease of installation so it is adaptable to all situations, but the viewing area is not sacrificed thanks to our cutting edge technology.

It comes standard with a seven piece log set, but you are also able to dress it up with any combination of glass kits, pebble kits, or ceramic stones. You can achieve whatever look you desire and do it all at an affordable price.

**WARMTH  
RATING  
19,000 BTU**

Not to mention the extended stainless steel pan burner makes the 19,000 BTU's of the Elite BCF36 by far the most attractive and impressive flame going in a decorative class fireplace.

### QUALITY CRAFTSMANSHIP

Savannah's products are designed with superior components and materials, assembled by trained craftsmen who take great pride in their work. The burner and valve assembly are leak tested and test fired at a quality control test station. Once assembled the complete fireplace is thoroughly inspected by a qualified technician, before packaging, to ensure that you, the customer, receives the quality product that you expect from Savannah's.

Consult your owners manual for complete warranties and conditions and proper use and maintenance. Check all local and national building codes and fire regulations. All specifications are subject to change without prior written notice due to on-going product improvements. Clearances are in accordance with local installation codes and the requirements of the gas supplier.
