QUALITY CRAFTSMANSHIP

Savannah's products are designed with superior components and materials, assembled by trained craftsmen who take great pride in their work. The burner and valve assembly are leak tested and test fired at a quality control test station. Once assembled the complete fireplace is thoroughly inspected by a qualified technician, before packaging, to ensure that you, the customer, receives the quality product that you expect from Savannah's.

Consult your owners manual for complete warranties and conditions and proper use and maintenance. Check all local and national building codes and fire regulations. All specifications are subject to change without prior written notice due to on-going product improvements. Clearances are in accordance with local installation codes and the requirements of the gas supplier.
