

# Elite BLST21 Thin Line See-Thru Linear Contemporary Gas Fireplace

## The BLST21 is one of a kind! The narrowest See-Thru on the market - period!

This 36" See-Thru linear fireplace is designed to fit all applications and with a framing depth of only 11" it is by far the narrowest and most adaptable affordable See-Thru on the market today.

Why settle for a 22" thick wall when you can cut that depth in half!!!

The unique depth of the BLST21 makes it a realistic fit for any See-Thru application. Bedroom, bathroom, living room, dining room, hall way, sitting room or wherever. Anywhere you want to place it...now you can! Finally, now here is a unit that will fit all your home designs.

**WARMTH  
RATING  
21,000 BTU**

The BLST21 comes standard with a River Glass & River Pebble kit and standing pilot but there are many options and accessories that you can add to suit your particular preference.

The BTU's for the BLST21 are an impressive 21,000 BTU's on high and can be turned down to a comfortable 13,000 on low, giving the homeowner an ideal range to suite any comfort level. This unique unit is about convenience, style and performance at its best.

## QUALITY CRAFTSMANSHIP

Savannah's products are designed with superior components and materials, assembled by trained craftsmen who take great pride in their work. The burner and valve assembly are leak tested and test fired at a quality control test station. Once assembled the complete fireplace is thoroughly inspected by a qualified technician, before packaging, to ensure that you, the customer, receives the quality product that you expect from Savannah's.

Consult your owners manual for complete warranties and conditions and proper use and maintenance. Check all local and national building codes and fire regulations. All specifications are subject to change without prior written notice due to on-going product improvements. Clearances are in accordance with local installation codes and the requirements of the gas supplier.
